NAUTALIA VIAJES, C/ ALBACETE 14. 46007 VALENCIA

About this tour

This tour is the best way of getting to know all there is to know about Seville while contemplating its beautiful scenarios at its best.

The excursion starts by inviting you to climb onto a comfortable minibus for a sightseeing tour across the infamous Isabel II Bridge, on the other side of which lies the legendary neighbourhood of Triana. This quaint part of town used to be the old sailors and potters' quarter, where you can still admire nowadays San Jorge's Castle, erected in the 10th century.

Feel like the sailors of old at the "Muelle de la Sal" (Salt Wharf), where an elegant boat will be awaiting your arrival to cruise you alongside all the wonderful buildings and bridges that line the banks of the Guadalquivir River.

Last but not least comes a visit to the Monastery of the Cartuja, where for three years Christopher Columbus planned his trip towards the unknown. The trip then ends with a tour of the Bullring of the Real Maestranza, considered to be one of the most important bullrings in the history of bullfighting.
